ance Notes on Codes and Abbreviations" appearing at the begin-
ning of each regular issue of the PCT Gazette.

(54) Title: METHOD FOR REINFORCING AN ARTICLE

(57) Abstract: The present invention relates to a method for reinforcing an article comprising attaching to at least one surface of said article a tape, film or yarn of a drawn thermoplastic polymer. The present invention further relates to an article comprising a solid thermosetting or thermoplastic material. The thermoplastic material being of essentially the same composition as said tape, film or yarn, which method optionally further comprises recycling the reinforced article. The tape, film or yarn is attached to said article by means of a heat treatment and/or by applying pressure and moreover, a layer of foam can also be applied upon at least part of the shaped material and before applying the covering layer at least part of the foam.
